Objective

MERN Stack Developer with expertise in **React, Next.js, Node.js, Sanity, Express.js, and MongoDB**. Passionate about frontend and backend development, creating scalable web applications. Currently learning **Generative AI and Metaverse** to enhance technical proficiency.

Work Experience

Junior Frontend Developer | Askari Technologies

 **November 2024 - Present**

- Developed **HR Management & AI Interview Conduction Platforms** using React, Redux, and Tailwind CSS.
- Implemented **real-time data visualization** using Chart.js for interactive analytics.
- Designed a **role-based access control system** for enhanced security.
- Built responsive, mobile-first interfaces using **Next.js, Tailwind CSS, Shadcn, and Bootstrap**.
- Integrated **RESTful APIs** for smooth backend data communication.
- Optimized performance through lazy loading, **code splitting**, and state management using Redux Toolkit.

Technical Skills

 **Frontend:** HTML, CSS, JavaScript, Tailwind CSS, Bootstrap, React, Next.js, TypeScript

 **Backend:** Node.js, Express.js, Sanity.io, RESTful APIs

 **Mobile:** React Native, Expo, Android Studio

 **Tools & Version Control:** Git, GitHub, Agile Methodologies, UI/UX Best Practices

Education

Intermediate (Engineering) | G.B.H.S.S. Mori Manger

 **June 2022 - May 2024**

Matriculation (Science) | G.B.H.S. Chukhi

 **March 2020 - May 2022**

Courses & Certifications

 **MERN Stack Development | GIAIC (2022 - 2023)**

- Hands-on experience with **React, HTML, CSS, TYPESCRIPT, Next.js, Node.js, Express, MongoDB, Redux, Sanity Toolkit.**

 **Generative AI & Metaverse | Governor House Karachi (2024 - Present)**

- Learned **TypeScript, Sanity CMS, OpenAI, Python** for AI and automation.

Projects

Full-Stack E-Commerce Website

 [Live Demo](#)

- Developed a fully **responsive e-commerce platform** using **Next.js**.
- Integrated a **dynamic shopping cart, payment gateway, and product filters**.
- Optimized **SEO & performance** using Next.js server-side rendering (SSR).

Read Blogs - Next.js Blogging Platform

 [Live Demo](#)

- Built a **modern blog website** with **Next.js and Sanity**.
- Users can **read, search, and categorize blogs** dynamically.
- Ensured smooth **data fetching and state management** with Sanity.

Resume Builder

 [Live Demo](#)

- Created a **resume-building tool** using **HTML, CSS, and TypeScript**.
- Implemented **custom templates, downloadable resumes, and form validations**.

Personal Portfolio

 [Live Demo](#)

- Showcased skills, projects, and contact details in a **visually appealing, responsive portfolio**.
- Integrated **Framer Motion for smooth animations**.

Core HTML & CSS Flowchart Website

 [Live Demo](#)

- Designed an **interactive flowchart tool** for visualizing concepts using **pure HTML & CSS**.
